GREAT REASONS TO STUDY @ UKZN

The University of KwaZulu-Natal (UKZN) is one of four African universities rated among the top 400 universities in the world according to the Academic Rankings of World Universities (ARWU).

UKZN is ranked in the top 3% of the world's universities. The University has a worldwide reputation for academic excellence in teaching and research, and degrees offered have international standing. The University has formal links, exchange programmes and collaborative teaching and research programmes with many other universities around the globe.

UKZN offers an exceptionally wide range of exciting and innovative courses that will broaden perspectives, foster a capacity for independent critical thinking, and provide intellectual tools to develop your mind, while enhancing your career opportunities in the local and global marketplace.

UKZN is the only University in South Africa to offer a degree in Agricultural (Bioresources) Engineering that is fully accredited by the Engineering Council of South Africa.

The multi-million rand KwaZulu-Natal Research Institute for Tuberculosis and HIV/AIDS (K-RITH) and international centre of scientific research is located on the Medical School campus. K-RITH is a groundbreaking partnership between UKZN and the Howard Hughes Medical Institute in the United States.

A CHOICE OF **FIVE** CAMPUSES

UKZN has five campuses. The degree programme you choose determines where you study. Most campuses are close to a number of shopping centres, entertainment and recreational areas.

The **Edgewood Campus** is in Pinetown. It is the University's primary site for teacher education. With easy access to the N3 highway and approximately 20 minutes' drive from Durban, the campus offers sophisticated and attractive facilities.

The **Howard College Campus** is situated in Glenwood in Durban, with spectacular views of the Durban harbour. The Howard College campus offers degree options in the fields of Engineering, Law, Humanities (including Music) and Social Sciences (including Social Work), Nursing and Architecture.

The **Nelson R Mandela School of Medicine** in Umbilo, Durban, offers hands-on, problem-based, practical and relevant training to those interested in pursuing the MBChB programme.

The **Pietermaritzburg Campus** is in Scottsville and offers a relaxed atmosphere with a great vibe. Pietermaritzburg is located in the KwaZulu-Natal Midlands, close to numerous nature reserves and parks. It is one hour's drive from Durban. Unique to the Pietermaritzburg campus are the disciplines of Agriculture, Theology and Visual Arts.

The **Westville Campus** is in the suburb of Westville, about eight kilometres from the CBD of Durban and Pinetown. The Westville campus offers programmes in Science, Management Studies and Health Sciences.

HOW ARE **STUDENTS** SELECTED

It is important to note that all qualifications have a limited number of spaces available. The most qualified applicants are chosen first and selection continues until all places have been filled. It is unlikely that applicants below the minimum score published will be selected. UKZN is serious about academic excellence – demand exceeds places available, and not all applicants meeting minimum requirements will be offered places.

ENTRANCE REQUIREMENTS

- A National Senior Certificate for degree studies (NSC-DEG) pass;
- A minimum of seven subjects with at least four subjects (passed at Level 4) from the designated list;
- English Home Language/First Additional Language (passed at Level 3 minimum);

UKZN will recognise academic excellence by awarding eight points to a subject with a performance Level of 90-100%.

Please see calculation of APS below:

FINANCING YOUR STUDIES

TO ALL FIRST-YEAR STUDENTS

All students who will register at public universities/TVET colleges for the first time in the new academic year and need financial support can now apply directly to NSFAS for financial assistance.

To apply on the NSFAS website, you will be required to register first to create your personal online account, and then proceed to fill in and submit the application form online. Late applications will not be accepted. You may need about 30 minutes to complete this online process, and must also have scanned copies of the following required attachments:

- ▶ Matric Certificate;
- ▶ Identity Document/birth certificate;
- ▶ last academic results; and
- ▶ proof of parent's income (if parent/s is/are employed), etc.

For a full list of the required supporting documents needed to complete your application, please refer to the NSFAS website: <http://www.nsfas.org.za/content/checklist.html>

PLEASE NOTE: In order for your application to be processed, please ensure that you complete all sections of the application form and attach all supporting documents. You must write your ID number on every page of all of your supporting documents in order for your application to be processed. NSFAS will not be able to process applications without an ID number. NSFAS Online Application: **Closing Date 30th November preceding the new academic year.**

Sponsored students must submit their confirmation of funding to the Financial Aid Advisor on the campus where they will be registering – in order to get financial clearance to proceed with academic and/or residence registration.

ACCOMMODATION

There are on-campus and off-campus residences but accommodation is limited. Allocation of rooms is based on need, academic potential, ability to pay and distance from home.

Unfortunately, it is not possible to allocate rooms to all applicants and you may therefore have to find yourself accommodation off-campus.

APPLICATIONS FOR RESIDENCES

Local first-year applicants must apply for admission to University residence on the Central Applications Office (CAO form). No separate application is required. Successful applicants are placed where accommodation is available.

If accommodation is awarded, you will be required to pay a residence deposit of R2 750 before a room will be allocated. This amount is required in addition to the R3 750 to be paid before registration.

RESIDENCE ACCOMMODATION FEES

Annual residence fees for first-time students are set at approximately R26 073 per year for a standard room and R28 518 for a large room. Please note that these are the approximate fees for 2017 and are subject to change in 2018.
