

## data@breakfast webinar series

You are invited to the next data breakfast by

**Farai Mazhandu**

OneQuantum Africa

Friday, 05 February 2021 Time: 07h30 - 08h30

**“Introduction to the quantum tech ecosystem and why Africa needs to build a robust quantum community now.”**

**Abstract:** An introduction, data, and analysis into the QIS ecosystem across the vendor, startup, and investor space globally. We will also take a look at current startups and research in Africa, and end with some thoughts on opportunities & challenges.

**Bio:** Farai Mazhandu is the President at OneQuantum Africa, a chapter of OneQuantum, the leading Quantum Tech community with virtual networking, member events, public summits attended by several thousand participants, mentorship programs, and many other perks, and Vice President at, interference Advisors the leading data provider and advisory firm in Quantum Tech.

He has an MSc in Physics from Wits and works every day to help communities understand and implement disruptive technologies that are fast reshaping the world around us. When not doing quantum, He enjoys traveling and discovering new places.
